

UC Berkeley

Do You Want To Experience A Different Summer ?

Ivy Club Education (ICE), in collaboration with The University of California, Berkeley and Archbishop Riordan High School of San Francisco, is proud to introduce two exciting two-week programs that prepare students for university-level work in English through intensive and immersive project-based learning in STEM (science, technology, engineering, and mathematics).

School Introduction

The University of California was chartered in 1868 and its flagship campus – envisioned as a “City of Learning” – was established at Berkeley, on San Francisco Bay.

Program Introduction

These are the types of skills that students learn by studying science, technology, engineering, and math—subjects collectively known as STEM (Science, Technology, Engineering, Math). We also combine the business related topics in the program. $x-y=?$

We will use STEM and Business as the core topics along with ESL. Thus, this is not a traditional ESL courses but will focus on the most famous topics, STEM and business during these two weeks. Students can also build a solid English proficiency foundation to prepare for their future university in any English speaking countries.

During the weekend, we will arrange sightseeing for students to attend. It is only 20 minutes driving distance from UC Berkeley to city of San Francisco; there are many excellent sightseeing places where students can go to experience California life. For instance, Cable Cars: an icon of San Francisco, Golden Gate Bridge, North Beach, and more!

Program Requirement

- Age: Grade 9 to 12 students
- English Proficiency: all the international students need to take our internal online test

Program Time

- Session II (with UC Berkeley):
 - July 16 to July 27
 - Check-In: July 15
 - Check-Out: July 28

Program – USD 2750
