WATCH ON-DEMAND

FSA and Tricor will host an online seminar to provide an in-depth look at int'l schools and boarding schools in Japan!

A complete listing of 30 leading schools in Japan.

This is the first ever seminar to serve as a guide to international education, covering preschool through higher education.

FSA and Tricor Japan will hold Domestic Int'l schools and Boarding School Online Seminars on Thursday, November 10 and Thursday, November 17. The editors of eduJUMP! have also been selected as guest speakers for these events.

The theme of this webinar is "International Education Options from Preschool to Higher Education in Japan." In addition to explaining the world's two major curricula, the International Baccalaureate (IB) and Cambridge International, 30 leading international schools and boarding schools in Japan will be introduced at a glance. This is the first time that an online seminar has been held that serves as a guide to international education, covering everything from preschool to higher education.

The FSA is promoting the attraction of financial businesses and advanced financial professionals from around the world to Japan, and as part of this effort, we are pleased to host this online seminar to introduce the educational infrastructure in Japan.

The Domestic Inter-Boarding School Online Seminar hosted by FSA. We hope you will take this opportunity to participate.

The graphic is a promotional banner for a webinar. On the left, a dark blue vertical bar contains the 'tricolor' logo and the 'Financial Services Agency' logo. Below this, it reads 'WEBINAR - MARKET EXPANSION SERIES' and the main title 'New Business Opportunities in Japan for Overseas Asset Managers 2022 Part 4 - International Schools'. A box lists three speakers: Paul Fradale (Principal, Aoba-Japan International School), Stephen Bailey (Principal, Laurus International School of Science), and Michio Montgomery (Representative Director & CEO, Global Step Academy Group). A red button at the bottom says 'WATCH ON-DEMAND'. On the right, a photograph shows a desk with an open book, a pencil holder, a stack of books, and a globe, with a chalkboard in the background containing mathematical formulas like $E=mc^2$ and $\frac{a-b}{2}$.
